As a matter of form please note that your submitted data will be recorded, processed and used at the RPTC for decision making concerning a possible treatment. Your data is treated strictly confidentially in accordance with statutory regulations.

DIAGNOSIS **Please complete as far as possible. Complete forms facilitate our handling. Should some documents be unavailable to you, we will, after receiving this form, contact you in order to try to obtain these documents directly from your physicians.**

Tumor-classification? _____

Location? _____

Stage? _____

Completed diagnostics and treatments (please forward as far as available):

- Histology
- Latest medical reports
- DVD/CD of recent CT-, MRT-, PET-CT- or Szintigraphies
- Reports of CT-, MRT-, PET-CT- or Szintigraphies
- Reports of earlier treatments (Surgery, Chemotherapy, Radiotherapy)

Please enclose/attach discharge letters and available examination results, if possible on CD DVD. Please no large size x-ray films for the time being.

If we need diagnostics, which have not yet been performed on you, we have the possibility to run these physicals in the RPTC (e.g. CAT-Scan, MRI, PET-CT, Sonography, Labtests).

Appraisal of your documents

Our physicians will review your Inquiry-form and the attached documents and images as soon as possible to decide if proton therapy may be advantageous for you. We will inform you about the result within 5 working days. This does not yet constitute a contract for treatment.

Personal Consultation at the RPTC

Alternatively, you may bring all available documents in person and discuss your case with one of our specialists for radiation oncology at the RPTC. To schedule you in, reach us by phone by dialing: +49 (0) 89 660 680 or send us an e-mail: patient@rptc.de.

In case of problems...

Should you require assistance please contact our team under the phone number: +49 (0) 89 660 680. We are happy to arrange a telephone conversation with one of our radiation oncologists. This should be possible on Tuesdays and Thursdays between 2 p.m. and 3 p.m.

ACCOMMODATIONS / SUPPORT SERVICES

Accommodations at the RPTC Guest House

yes no

Our Guest House is located just opposite the RPTC. It offers the standards of a top 3-4 star hotel. Because of its nearness to the RPTC it provides a comfortable stay for patients and their companions.

INDIVIDUAL CARE BY OUR PROHEALTH COMPLETE CARE SERVICE

I am interested in an assistance from the PH-CCS

yes no

The PH-CCS takes, if you wish so, care of all details of your stay during the treatment. The complete service of the PH-CCS covers airport-transfers, translation services and cultural and sightseeing programs. We attach a service list.

The Rinecker Proton Therapy Center will contact you. Submission and processing of this form do not yet constitute a treatment contract!
